

## Purpose

FACET4SNF is a web-based interactive tool to facilitate evidence-informed decision-making with the goal to improve the cost-effectiveness of nutrition programs using specialized nutritious foods (SNFs).

Relevant decision-makers in funding and implementation organizations can use FACET4SNF to compare cost-effectiveness among alternative SNF product, procurement, or program design choices.

## Tasks

### Ex-Ante Program Proposal

1. Proposal Development & Submission
2. Submitted Proposal Review

### Ex-Post Program Learning

1. End-Line Reporting
2. End-Line Review

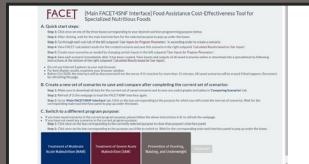

### Other Decisions

1. Planning for Future Funded Activities
2. New Product Evaluation

## Resources

### FACET Site

facet4snf.org

### User Manual

## How to Apply this Tool

Example 1. Ex-Ante Proposal vs Ex-Post Endline (MAM Treatment)

Example 2. New Product Evaluation (SAM Treatment)

Example 3. Product Choice and Program Design (Prevention)

**1 Choose The Program Purpose**

**Treatment of Moderate Acute Malnutrition (MAM)**

**Treatment of Severe Acute Malnutrition (SAM)**

**Prevention of Stunting, Wasting, and Underweight**

**2 Set Up And Save First Scenario**

**Program Specifics**

- product choice, dosage, eligible group, supplementation/ treatment duration, etc.

**Cost Components**

- product cost, supply chain costs, programming cost, economic cost to volunteers and recipients/caregivers, etc.

**Nutrition Impact**

- % recovery and % sustained recovery from MAM or SAM
- % reduction in stunting, wasting, and underweight

- Users may input their own data.
- FACET supplies default values, visualizations of data and scientific evidence, and other references.

**3 View FACET-Calculated Results**

- Total Cost And Total Quantity Indicators
- Cost-Efficiency Indicators
- Cost-Effectiveness Indicators
- Indicators Related To MAM/ SAM Burden (Treatment Only)

**4 Change Inputs To Create And Save Alternative Scenarios**

**5 Compare Across Saved Scenarios By Viewing FACET-Generated Visualizations And Downloading All Data For Further Analyses**
